XORRPAD PRO — CONNECTIVITY REVIEW / P3

ENGINEERING DRAFT — A human PCB designer must review this before any order.

Reconstructed from SKiDL netlist. Named global nets connect every sheet; source-open pins remain open.

File: pro-review-10.kicad_sch

Review holds: ILIM_VALUE_TBD; USB/RF/power; sourcing; enclosure supports.

Pro J3 and U8 use the source passive terminal models; no functional certification.

DO NOT ORDER — human PCB review required
